I bought this lava lamp for a son. It is amazing! It has got black base and it's about 50cm tall. What makes ~~it special~~ it special is that you can make it change colours using special ~~app~~ mobile app. You can control it even when you are not at home! It also has its own AI that can turn on the lamp on its own when you enter the room and turn it off when you leave it. This function really helps you reduce energy consumption. However, there is a minor drawback. Due to the amount of electric details it contains, it can get very, very hot. So don't touch it when it's on, it might hurt. But if we put this little detail aside, this lava lamp is perfect. It looks beautiful when lights are on and simply charming when they are off. I'd recommend it to anyone who'd like to ~~decorate~~ decorate their room. It is not too expensive, so it can also serve as a good birthday gift. Buying it was definitely a good choice!
