"Rusty woods" review

Hello everyone, this is my review of the new game "Rusty woods", which came out a couple of days ago. Hope you'll enjoy it!

To begin with, "Rusty woods" is a ~~strategy~~ point-and-click horror videogame, in which you are a ranger, who works in a cursed forest somewhere in the USA. You need to protect its flora and fauna from monsters, which can be very dangerous or even immortal. You should use traps, poisons and many other weapons to deal with your enemies and save nature.

After playing this game, I can name a lot of good and bad things about it. Firstly, ~~the~~ "Rusty woods" have unique and memorable art style, which is excellent in my opinion. Also ~~more~~ the monsters have interesting and unusual features I've not seen before.

Unfortunately, after about 15 hours of playing this game, it can't offer me anything new anymore. I think there are not enough monsters and some action in general.

So, having its pros and cons, the game itself feels quite new and interesting to try if you like horrors with tense atmosphere and rather calm gameplay.

I hope this review was useful for you. Thank you for reading!
